If approved, Bush's 2006 budget would axe the National Institute of Standards and Technology's (NIST) Advanced Technology Program that apportions funding to "high-risk, high-payoff" commercial technology R&D, and which opponents have criticized as "corporate welfare." The Advanced Technology Program received about \$137 million in the 2005 budget, including work on experimental wireless technologies and computer chip research. Another EU-backed Information Society Technologies project using ...

These applications include: automated translation of Ada data types and objects in a specification to an XML schema; and conversely, automated translation of the data types and elements in an XML Schema to an Ada specification. This requires creating applications in Ada that use and support XML; and using XML to create Ada environments including XML based tools. Ada and XML XML, Schema, & XSL Roles XML files contain the data.

10 Women Writers Project

Size: 23.25KB MIME type: text/html

However, back in 1986 when the Women Writers Project began, scholarly text encoding was quite new and so was SGML, the then-recently developed standard for descriptive text encoding. With the publication of the TEI Guidelines, the Women Writers Project and other text encoding projects could finally begin to encode their texts in earnest. In addition to the Women Writers Project, other women writer text encoding and related projects have been developed.

material of the Information Technology curriculum, and Chapter 8 describes the additional material necessary to constitute a complete baccalaureate curriculum in Information ...

17 Meta Data Management for Business Intelligence Solutions.PDF

Size: 85.98KB MIME type: application/pdf

There are two types of meta data: technical meta data and business meta data. Additionally, Visual Warehouse can exchange meta data with any system that conforms to IBM's Meta Data Interchange Language, the Meta Data Interchange Specification (MDIS) adopted by the Meta Data Coalition, or IBM's VisualAge Exchange product. Visual Warehouse Automation of Meta Data Interchange Maintaining independent meta data stores introduces the risks that the meta data stores will become inconsistent.
